AGENDA

- Community Updates
- Facility Updates
- Discussion

COMMUNITY UPDATES

FACILITY UPDATES

DETROIT NORTH

Operations

- No reported complaints of odor received since non-hazardous industrial waste processing has resumed
- Mt. Elliott road construction is complete, and all facility truck traffic has returned to the normal route
- Website under development
- Additional concrete repairs are ongoing as part of facility housekeeping

AIR MONITORING

- Sampling is required every 12 days on EPA schedule
- Analysis completed for TSP, Arsenic, Lead, and Chromium
- EGLE's most recent Ambient Air scorecard shows 100% compliance

DETROIT NORTH

Regulatory & Compliance

2024

- Since the December HCA, the facility has been inspected by the Wayne County Solid Waste Program. Two inspectors walked the perimeter of the property and the interior of Building #4. No violations or odor concerns were identified.
- No wastewater discharge exceedances since the December HCA meeting.
- EGLE has not received any odor complaints regarding Building #4's operations as of 1/30/24.

DETROIT NORTH

Regulatory & Compliance

2023

- 13 regulatory inspections last year.
 - EGLE Hazardous Waste Program (No violations identified in the Q2, Q3, and Q4 inspections)
 - EGLE Solid Waste Program (No violations identified)
 - EGLE Air Quality Program (No violations identified)
 - Wayne County Solid Waste Program (No violations identified)
 - Great Lakes Water Authority
- 2 GLWA exceedances in March (1 copper; 1 nickel)
